RE: ELK GROVE TOWNSHIP SANITARY SEWER SYSTEM - SANITARY SEWER LINING 2020

Elk Grove Township will be starting its sewer lining program the week of December 18, 2020 weather permitting. The program is anticipated to conclude January 23, 2021. These repairs include sanitary sewer repairs at various locations in the Township. The lining will occur in the public right-of-way and may cause lane closures or may partially block driveways intermittently. Streets where the sewer will be lined include:

- Addison Court – Busse Rd. to cul-de-sac
- Higgins Road – Busse Rd. to Roppolo Dr.
- Oakton Street: Hamilton Rd. to Lexington Dr.

If you should have any questions, please contact Mr. Mark Toll at the Township's consulting engineers office, Daniel Creaney Company, at 847-480-5757. Thank you.
